PROFESSIONAL EXPERIENCE

Web Designer/Developer (Contract)
Ratkaj Designs

Jan. 2025 - Present
Remote

- Developed WordPress websites from Figma design files, ensuring accuracy in layout, typography, and interactions.
- Utilized PHP and Advanced Custom Fields (ACF) to create dynamic and customizable WordPress themes.
- Ensured responsive and accessible design implementation, adhering to WCAG standards for usability and inclusivity.
- Optimized website performance and handled troubleshooting and maintenance.
- Effectively communicated project progress, technical recommendations, and timelines to stakeholders.

Web Developer
Acorn Stairlifts

Dec. 2022 - Dec. 2024
Orlando, FL

- Developed client facing websites and web apps for users across 7 countries using VS Code, Figma, and Dreamweaver.
- Created pixel-perfect website layouts/user interfaces utilizing standard coding practices from Figma design files.
- Integrated structured data using PHP to connect front-end interfaces with back-end systems.
- Documented technical specifications and coded responsive development for desktop, tablet, and mobile devices.
- Utilized XML and HTML in VS Code for email development in Gmail, Outlook, Yahoo, and AOL email providers.

Freelance Web Developer/Designer
Self-Employed

Dec. 2021 - Nov. 2022
Remote

- Designed and developed client websites, handling both visual and functional aspects from planning to launch.
- Worked with 3 CMS platforms for website redesign and development.
- Demonstrated best practices in accessibility, search engine optimization, and site architecture.
- Maintained, troubleshot, and optimized websites for performance, security, and usability.
